PROFESSIONAL SUMMARY

Senior DevOps Engineer with 5+ years of experience designing, automating, and managing scalable cloud and production infrastructure across AWS, Azure, GCP, and DigitalOcean. Strong expertise in Kubernetes, Terraform, Ansible, CI/CD, GitOps, observability, cloud security, and distributed systems. Experienced in managing high-traffic Magento platforms, multi-cloud migrations, Kafka/Druid/Aerospike environments, disaster recovery, centralized monitoring, and production reliability. Proven ability to improve availability, automate infrastructure operations, reduce deployment risk, and accelerate incident response.

TECHNICAL SKILLS

- **Cloud & Infrastructure:** AWS (EKS, EC2, Lambda, S3, RDS, VPC), Azure (AKS), GCP (GKE), DigitalOcean
- **Infrastructure as Code:** Terraform, Ansible, CloudFormation
- **Containers & Orchestration:** Kubernetes, Docker, Helm, KEDA, Argo CD, GitOps
- **CI/CD & Automation:** Jenkins, GitLab CI/CD, GitHub Actions, Azure DevOps, AWS CodeDeploy, Python, Bash
- **Monitoring & Observability:** Prometheus, Grafana, ELK Stack, Loki, CloudWatch, Alertmanager
- **Security & Networking:** HashiCorp Vault, Kubernetes RBAC, SonarQube, Cloudflare WAF, NGINX
- **Databases & Middleware:** Kafka, Druid, Aerospike, Redis, Varnish, PostgreSQL, MongoDB, RabbitMQ
- **Platforms & Applications:** Magento 1/2, WordPress, Drupal, Linux

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer

Ebizon Net Info Pvt. Ltd.
Dehradun | Aug 2025 – Present

- Orchestrated **multi-region cloud-native infrastructure across 15+ production clusters**, maintaining high availability through proactive scaling and automated self-healing configurations.
- Architected **Blue-Green deployment pipelines** supporting **10+ daily production releases**, eliminating deployment-related downtime.
- Automated enterprise infrastructure provisioning using **Terraform**, including resource lifecycle management and spot-instance scheduling for non-critical workloads.
- Strengthened platform security by implementing **HashiCorp Vault for dynamic secrets management** and Kubernetes RBAC for least-privilege access control.

DevOps Engineer

Ebizon Net Info Pvt. Ltd.
Dehradun | Sep 2024 – Aug 2025

IT Services and IT Consulting

- Optimized enterprise **Magento platforms using Redis and Varnish**, improving application performance for **50,000+ global users**.
- Standardized application deployment workflows using **Ansible** across Development, Staging, and Production environments, reducing configuration drift.
- Engineered centralized **ELK and Grafana monitoring** for **40+ microservices**, improving production visibility and incident response.
- Managed production infrastructure, application deployments, caching, monitoring, troubleshooting, and reliability improvements across multiple environments.

DevOps Engineer

TorcAi Digital Media Pvt. Ltd.
Dehradun | Feb 2023 – Sep 2024

Data Science & Digital Advertising

- Managed large-scale distributed **Kafka, Druid, and Aerospike clusters**, maintaining data persistence through disaster recovery pipelines across **3 data centers**.
- Executed a **GCP-to-AWS multi-cloud migration** using Terraform, including secure cross-cloud networking and migration of **50+ TB of data**.
- Integrated **SonarQube security and code-quality scanning** into GitLab CI/CD pipelines to identify vulnerabilities earlier in the software development lifecycle.
- Supported production infrastructure, distributed systems, deployments, monitoring, troubleshooting, and disaster recovery operations.

Operations Associate

FirstCry – Digital Age Pvt. Ltd. – Dehradun | Sep 2022 – Feb 2023

E-commerce

- Resolved **50+ customer inquiries daily**, providing real-time technical and operational support.
- Coordinated with **3 internal logistics teams** to ensure accurate order processing and delivery for high-volume e-commerce operations.

Junior Software Engineer

Shoviv Software Pvt. Ltd. – Dehradun | Mar 2022 – Aug 2022

Data recovery, Data conversion, Data migration

- Developed enterprise data recovery software using **VC++ and C#**, resolving **20+ high-priority defects** during the software development lifecycle.
- Assisted with onboarding and technical training for **engineering hires**, covering product architecture and code-quality standards.

Technical Support Engineer

Shoviv Software Pvt. Ltd. – Dehradun | Oct 2021 – Mar 2022

Data recovery, Data conversion, Data migration

- Provided Level-2 technical support for global customers across software and hardware environments.
- Diagnosed and resolved issues involving **Windows Server, VMware, Microsoft Exchange, HCL Domino Server, Active Directory, networking, and remote desktop environments**.
- Managed installation, configuration, account setup, connectivity troubleshooting, defect tracking, and escalation.

Key Skills: Windows Server, VMware, Active Directory, Microsoft Exchange, HCL Domino, Network Troubleshooting, Customer Support, Remote Diagnostics, Azure

KEY PROJECTS & INFRASTRUCTURE EXPERIENCE

Multi-Cloud Infrastructure & Migration

AWS | GCP | Terraform | Kubernetes | VPC Networking

- Designed and managed cloud infrastructure across AWS, GCP, and Azure environments.
- Executed large-scale cloud migration and infrastructure provisioning using Terraform.
- Implemented secure networking, high availability, automated deployments, and infrastructure lifecycle management.

Distributed Data Platform

Kafka | Druid | Aerospike | Disaster Recovery

- Managed distributed data infrastructure supporting high-volume workloads.
- Implemented disaster recovery processes across **3 data centers** to improve data persistence and operational resilience.

E-commerce Platform Optimization

Magento | Redis | Varnish | NGINX | Cloud Infrastructure

- Optimized Magento production environments using application and infrastructure-level caching.
- Improved performance and scalability for platforms serving **50,000+ global users**.

Production Observability

Prometheus | Grafana | ELK | Loki | Alertmanager

- Built centralized monitoring, logging, dashboards, and alerting for production workloads.
- Improved operational visibility across **40+ microservices** and supported faster incident investigation.

CERTIFICATIONS & ACHIEVEMENTS

 Oracle Cloud Infrastructure - Accredited DevOps Professional [View Certificate](#)

 Oracle Cloud Infrastructure - Credentialed Foundations Associate [View Certificate](#)

 Fortinet: Network Security Expert (NSE) Level 1
Certified Kubernetes Administrator (CKA): In Progress (Expected Q4 2026)
HashiCorp Certified: Terraform Associate (004): In Progress (Expected Q4 2026)
Awarded Employee of the Year 2025

EDUCATION

MBA - Uttarakhand Open University 2022-2024

Diploma in Engineering - (IT) -Uttarakhand Board of Technical Education 2018-2021

Bachelor of Arts - Uttarakhand Open University 2018-2021

LANGUAGES

English – Proficient

Hindi – Native
